**Magill Pair on Trial.**  
Deatur, Ill., Oct. 12.—Assistant State's Attorney Mitchell opened the trial of Fred and Faye Graham Magill yesterday, when he began to outline their case to the jury.

According to his opening statement, the prosecution will endeavor to prove that Fred Magill killed his first wife, Mrs. Pet Magill, by strangling after he had given her chloroform, and that his present wife, Faye Graham Magill, was an accessory before the fact.

Mr. Mitchell stated that Faye Graham Magill was at Magill's home on the evening of the tragedy. Mr. Mitchell declared that he expects to prove that Magill and Faye Graham were in love with each other for some time before Pet Magill's death, and will support this with testimony.

## ROOSEVELT FOR MAYOR

Jacob A. Riis Names Him For New York Office

### NO THIRD TERM FOR HIM

The President's Chosen Biographer Says That Gotham Is in Need of Roosevelt to Drive Out the Crafters.

New York, Oct. 12.—Probably no man in the United States has been nearer to Theodore Roosevelt than Jacob C. Riis of New York, who as a police reporter was stationed directly across the street from police headquarters when Mr. Roosevelt was Gotham's police commissioner. Later Mr. Riis went into the civil improvement movement and the cleaning of the East side, which resulted in the disappearance of the old Five Points and the appearance of immense breathing spaces in the densely crowded sections of the lower part of the city. As the President's biographer and co-worker in many enterprises he would be in a position to know when he declares, as he did in Roxbury last evening, that President Roosevelt has assured him that he would not run for a third term. There were hundreds, he said, who hoped that he would not, for he was needed badly as mayor of New York, where he can help the cause of good municipal government and drive out the crafters.

"It would entail no loss of dignity," Mr. Riis declared, "but would be rather, a triumph of democratic ideas."

"As further evidence of the growth of democracy," Mr. Riis went on, "I want to see your aristocratic Groton school boys playing football with the Hell's Kitchen eleven from your North end. One will not then think the other a mollycoddle, and the ones now so regarded will learn that his poorer neighbor is a boy after all and not a tough."

"I want your Beacon Hill to visit your Italian quarter, without the unpleasant disguise of a civic committee, which always causes the irritated tenement dweller disgustedly to inquire, 'who's them?' We cannot forget our poor neighbor lest he remember us in a way to be dreaded."

Mr. Riis was speaking on the subject of "My Neighbor," at the Elliot Congregational church, Roxbury, and in his remarks he deprecated that tendency of the rich and educated to snub the poor and ill-bred.

### "UNCLE JOE" GETS FIRST NATIONAL DELEGATES

Michigan Republicans Elect Two Delegates to the Next Presidential Convention to Vote for Cannon.

Owosso, Mich., Oct. 12.—The first gun in the presidential campaign of 1908 was fired Thursday afternoon, and Speaker Joseph C. Cannon of the national House of Representatives is the man the Republicans hereabouts desire for the next president of the United States. The 8th district Republican congressional convention met, and, after electing two delegates to the Republican national convention, instructed them to cast their votes for "Uncle Joe" Cannon as the party standard-bearer. The convention, so far as is known here, is the first one in the United States to select delegates to the Republican national convention.

The delegates selected are Congressman J. W. Fordney of Saginaw, Postmaster L. O. Dewey of Owosso, the alternates being Alfred Huston of Tuscola and W. H. Bronson of Clinton. F. W. Gilchrist of Alpena was indorsed for delegate-at-large.

The Cannon resolution was opposed by advocates of Secretary Taft, who, however, were far in the minority.

Knox has been indorsed by the Pennsylvania Republicans in convention as their nominee for the presidency, but no Knox delegates have as yet been chosen in the Keystone state.

### Pettibone Trial Due Tuesday.

## "FILTHY" STATIONS ARE CONDEMNED

Vermont Railroad Commissioners Notify Railroads That Present Conditions Must Not Continue.

The state board of railroad commissioners have sent a warning to the railroads doing business in Vermont that they must be more careful as to the cleanliness of their stations and appointments. Mention is made of the stations in Montpelier, Burlington, White River Junction and Essex Junction as "filthy" and unfit for public waiting rooms. The letter is as follows:

To the Railroads of the State of Vermont: On our recent annual inspection of the railroads of this state, we gave special attention to the condition of passenger stations and their appointments. In many instances, the stations and toilet rooms had been specially cleaned for the occasion, and, therefore, one the whole, we found them fairly neat and presentable. But on our various journeys through the state, both before and since our formal inspection, we have observed that many of the passenger stations are allowed to become and to remain so filthy as to be unfit for public waiting rooms, and in particular, that many toilet rooms are so filthy as to be actually repelling. This last has frequently been the condition at the stations most resorted to, as Burlington, White River Junction, Montpelier, Essex Junction, and others. Complaints from reliable citizens in various parts of the state have also recently called our attention to this matter. This condition of things should not and will not be tolerated. Moral qualities rule the world, but at short distances the senses are despotic; and outside of its duty to do all in its power to insure the safety of the traveling public, a railroad owes the public no higher duty than cleanliness. Passengers as much pay for, and have a right to demand, neat and presentable passenger stations, equipped with neat, presentable and well-kept toilet rooms, as safe and convenient transportation; and a railroad both violates its duty and practices a false economy if it ignores that fact. We realize that some of the public are so exasperatingly careless and even filthy that in many cases it requires considerable expense to keep stations and toilet rooms constantly clean and in a sanitary condition; but vigilance and expense is all that is ever required to insure the desired result, and the duty of the common carrier of passengers exacts that vigilance and expense.

We therefore ask every railroad company in this state to take such steps as will insure the neat, convenient and presentable condition of its stations and toilet rooms. There is absolutely no excuse that can justify the existence of the conditions complained of; and unless the required result is at once attained, and continuously maintained, we shall cite the offending road before us to show cause why a more formal and effective pressure should not be applied to secure the desired end."

## Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription. Dr. John Fyfe, one of the Editorial Staff of THE ELECTRIC MEDICAL REVIEW says of Unicorn root (*Holcus Dicois*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterus invigorator. It makes for normal activity of the entire reproductive system. It continues in Holcus we have a medicinal which not only cures the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." In Fyfe further says: "The following are among the leading indications for Holcus (Unicorn root). Pain or aching in the back, with dyspareunia; a weak condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the uterus; menorrhagia (bleeding), due to a weak condition of the reproductive system; amenorrhea (suppression or absent monthly period); or dyspareunia (painful intercourse); an aching condition of the digestive organs and a general (this blood) habit dragging down in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Holcus, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions and general debility of the system."

Prof. John M. Scudder, M. D., (late of Cincinnati), says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine to use about which there is so general unanimity of opinion. It is unsurpassed as the tonic useful in all debilitated states."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

## GOV. POST OWNS UP

Admits He Made Pretty Strong Statements

### IN REPORTED ATTACK

The Porto Rican Executive Says He Was Trying to Stir Up Educators; Rape Superior Attitude of Americans.

New York, Oct. 12.—Gov. Regis H. Post of Porto Rico was asked yesterday concerning the attack reported to have been made upon him of the American educators and missionaries in Porto Rico.

Gov. Post is now at Bayport, L. I., at the home of his brother, W. K. Post, of the brokerage firm of Ward, Hayden & Satterlee of 120 Broadway, awaiting the recovery of his wife from a minor operation at an uptown hospital. Gov. Post said:

"Before I left the island I spoke to the teachers at an informal meeting of the department of education. I believed the department had done good work but it could do better, and I told them so. I tried to stir them up and spoke strongly, it may be too strongly. But instead of stirring them up it appears that I hurt the feelings of some of them so that a number actually wrote their resignations that evening. Learning of this I called them together again the next day and explained that I wanted them to take the talk in the way it was really meant, for their own good, for the good of their work and of the island in general. When they understood that, the resignations were not offered."

"I am going back to San Juan as soon as Mrs. Post recovers, and I will take up the matter immediately. I don't know what the situation is in that particular regard. I do know there are some good men and some poor ones in the department. Another thing, there is a certain feeling against Americans in the island which I believe is entirely unnecessary and avoidable, and which I will stamp out if I can. That is, stamp out or work it out."

"The unpleasant feature of this thing is that one of its most fruitful causes is, not the Porto Ricans, but the superior attitude of certain Americans. As you can readily see, this assumption of superiority on the part of some of our people who have gone on there is to people of that blood or, in fact, any blood, productive of very bad feeling."
